COOKIE NOTICE

Last updated: September 29, 2025

What are cookies?

This cookie notice explains what cookies are, their types, and how we use them. For example, the information we collect through cookies, how that information is used, and how to manage cookie settings.

Cookies — small text files used to store small pieces of information. They are stored on your device when the https://firekit.space website (the "Website") is loaded in your browser.

In the process of using the Website https://firekit.space, we use Cookies, which are necessary for the proper operation of the Website, adjusting its operation, ensuring the security of the Website, adapting it for the User, as well as collecting statistical and analytical data.

How do we use cookies?

Like most online services, our website uses first and third-party cookies for several purposes. Basic cookies are mostly necessary for the website to function properly and do not collect any of your personal data.

The third-party cookies used on our website are mainly designed to understand how our website works, how you interact with our website, to ensure the security of our services, to provide advertising that will be relevant to you, and, in general, to provide the best possible user service and to collect statistical data to help speed up your further interaction with our website.

The third-party cookies used on our website are mainly designed to understand how our website works, how you interact with our website, to ensure the security of our services, to provide advertising that will be relevant to you, and, in general, to provide the best possible user service and to collect statistical data to help speed up your further interaction with our website.
